

BHS DONKEY Passport

Application Form

The
British
Horse
Society

This form is to be used to apply for an ID only passport for a donkey/mule of unverified breeding. Please complete the details below using block capitals. **Please note: applications MUST be accompanied by an original identification chart (overleaf), which must be completed and signed by a Veterinary Surgeon and contain a minimum of 5 identifying features.** The application form may be posted to the office (address below) or scanned via email to passport@bhs.org.uk **Applications submitted on forms for other organisations or are missing information will be returned.** Passports for animals under the age of 12 months will be processed as 'new', passports for animals over the age of 12 months will be processed as a 'replacement', passports for animals with existing BHS issued records will be processed as a 'duplicate'. For further information, refer to our website (www.bhs.org.uk) or contact the office (02476840517).

BHS passports cost £27.50 (£17.50 for registered equine charities).

Animal Name: Type: Donkey/Mule
(Please delete as appropriate)

Sex: Male/Female Colour: Date/Year of Birth (believed to be):
(Please delete as appropriate)

Signature and stamp of veterinarian or qualified person or competent authority (name in capital letters)

IDENTIFICATION PROCEDURE – important information for completing the form

The recommended procedure for identification is described in the FEI booklet 'Identification of Horses'. The diagram and written description must agree and be sufficiently detailed (**at least five identifying marks such as whorls or white markings**) to ensure the positive identification of the animal in the future. White markings must be shown in **RED** and the written description completed using **BLACK INK** in **BLOCK CAPITALS** or **TYPESCRIPT**. If there are no white markings, this fact must be stated in the written description. All head and neck whorls should be marked ('X') and described in detail. Other whorls should be similarly recorded in greys and in animals lacking sufficient other distinguishing marks. Acquired marks ('V') and other distinguishing marks, such as prophet's thumb mark ('+'), walleye and so on, should always be noted. **The Veterinary Surgeon must indicate the location of the microchip on the silhouette with a (M) symbol.**
